

NATIONAL UNIVERSITY OF COMPUTER & EMERGING SCIENCE
Database Systems Lab (CL-203)

Assignment # 2

Issue Date: 10th November 2017
Due Date: 18th November 2017

Marks: 10

Please carefully read the following instructions.

- It should be clear that your assignment would not get any credit if the assignment is submitted after the due date. No assignment will be accepted after the due date.
- Strict action will be taken if submitted solution is copied from any other student.
- You are supposed to perform mentioned tasks using PHP and MYSQL.
- If you people find any mistake or confusion in assignment (Question statement), please consult before the deadline. After the deadline no queries will be entertained in this regard.
- For any query, feel free to email at: ammara.yaseen@nu.edu.pk

Tasks:

- 1- Make a folder and name it as your student ID. i.e. kXX-XXXX.
- 2- Install Xampp and provide the necessary screen shots before and after the installation.
- 3- Make a user at the backend, name it as your student ID. Provide screen shot of that user.
- 4- For the rest of the tasks given below, provide front end codes.
 - Connect MYSQL with front end using your user.
 - Create a database and name it as "Library Management System".
 - Consider the given ERD. Make this ERD (Tables and Relations) in the created database.
 - Insert at least 10 rows in each table.
 - Submit a zip folder that contains all the screen shots and necessary codes on SLATE.
